In Reference of CEA

To Whom It May Concern;

In March of 2005 St. Angela Merici Parish of Windsor Ontario embarked upon a major project of replacing its existing parish hall. The structure built approximately 60 years ago lacked the basic necessary amenities required of today's public gathering areas.

We decided at that point that we would incorporate only the best technology available. These criteria applied to every aspect of the project from the washroom facilities to the kitchen and to the hall and banquet facilities.

When it came time to review our needs for the hall area we chose CEA. Our project co-chair Angelo Minato had been involved with the construction of the Windsor Hall at the Fogolar Furlan Windsor and had used CEA to provide the Fogolar with a state of the art Audio and Visual system.

CEA was chosen early in the process and participated in the architectural planning stage. Working with our General contractor CEA demonstrated their ability to complete their work on time and within budget. CEA has also been vigilant in their support to date and we have been very happy with their post installation service.

Today St. Angela Merici Centre is known not only as a beautiful gathering place and testament to Windsor's Italian community but also as being a technologically advanced facility thanks in part to Richard Croteau and the staff of CEA.

If you have any questions I invite you to contact Angelo Minato anytime at 519 969 9460.

Kindest Regards;

A handwritten signature in dark ink, appearing to read "Fr. August Feccia". The signature is fluid and cursive, with a large initial "F" and "A".

Fr. August Feccia, Pastor
St. Angela Merici Windsor
